PRODUCT TECHNOLOGY

AUTOMATIC RECOGNITION

Fitting an accessory head automatically configures voltage & control parameters enabling a simple user experience.

- The rechargeable OneClik® Handle can output a powerful 30 Watts at voltages to suit many varied tasks, from high performance screwdriving to room-filling flood lighting. The 5000mAh rechargeable battery has enough power to run a camping lantern for upto 18 hours, or recharge multiple cell phones.

VALUE ADVANTAGE

Build Customer Loyalty

- After purchasing our basic set, we will drive the sales of other accessories with a greater value advantage.
- Excluding the cost of the Handle, the sales price of additional Accessory Heads is only about one-third of that of conventional products,
